Finally it's time for a first label retrospective of **Farside Records**. In cooperation with his good friends **Winni Petersmann** (on the rock) & **Oliver "Olski" von Felbert** (Melting Pot Music), **Ingo Sanger** started the vinyl division of Farside in 2006 after some years of compilation business. Since 2009 **Farside Records** is completely part of the "**on the rock**" agency, located in Waltrop near Dortmund/Germany.

Together with his **Westpark Unit** partner **Herb LF**, **Ingo Sanger** tries to deliver insight into the world of Farside within 60 minutes. For **Farside 1.0** they sorted out 15 tracks, edited most of the DJ friendly club versions exclusively and converted the package into a mixture of deep, dope & soulful CD listening experience. As a special gift the CD includes a splendid data section where you can find all full length versions of the **Farside 1.0 EP** vinyl in MP3 format. Feel free to grab the files with your PC/Mac. All newer CD players will play the files anyway.

All the artists of the **Farside** family are involved, as there are **Matt Flores**, **Herb LF**, **Henry L**, **Westpark Unit**, **The Offsetters** & **Orang Asli**. Also a few friends of the family laid their remixing hands on some of the tunes. Check out the beautiful reworks of **Wighnomy Brothers**, **Marcus Worgull** or **Bruno "Patchworks" Hovart**.

As Dusseldorf's **Matt Flores** is internationally in the focus of labels like Third Ear, Compost Black or Combination to name a few, he not just shows his deep house skills ("Tectonic Move") on **Farside 1.0**, but also his affinity for booming slow house tunes ("Lapad") and his dub roots. One of the highlights on the compilation is the Radio Rockers Version of **Matt Flores** extraordinary collaboration with jamaican singer "**Singer Jay**" on "Nice Day". See also the house dub in the bonus mp3 section.

Cologne based **Henry L** is the rising star in deep house world. His moniker **Henree** might be familiar for the Drum & Bass heads out there. This guy has the perfect groove, always with a disco & funk vibe ("Wake Up"). We are proud to additionally present the beautiful **Marcus Worgull** (Innervisions) Dub of **Henry L** "The Other Day At The Basement". Don't forget to check **Henry L**'s brandnew detroitish bonus tune "Pause". Bomb!

Herb LF is representing his biggest hit to date ("Sunliner") in a special radio edit. Feel the subbass & the brilliant hook of this monster tune. **Herb**'s "Fruchtalarm" was remixed by **Gabor "Robag Wruhme" Schablitzki** of the famous **Wighnomy Brothers**. Gabor reworked the track into an extraordinary jazz house tune. St. Germain meets minimal. Jazz! **Herb LF**'s teamwork with female singer **Elina Monova** brings us the early 90s inspired downbeat version of "Set Me Free". What a beautiful tune! A bouncing house dub is hidden in the mp3 section.

The duo **Westpark Unit aka Herb LF & Farside's Ingo Sanger** explores the funk within deep house with their biggest hit "Jeepah" and the bonus tune "Feel This! Dub". "Blaxrotation Suite Mix" is a slow percussion groover while their "Love Ritual" remix of the french duo **The Offsetters** is a deep monster tune. Expect also some live disco/funk vibes in the rework of **Westpark Unit**'s "Stoned Love" by french musician Patchworks. Magic!

Last but not least "Springsequence" of icelandic artist **Asli** is one of the most beautiful house tunes that saw the light via **Farside Records** to date.
