**Matt Flores** is a “native” Düsseldorfer and active musician since the early 90s. Starting as a Drum & Bass & Dub/Reggae Producer, his breakthrough on the international floors was him being part of the international respected german 2step crew **Gush Collective**. Since the Collective has been split up, he is mostly recognised as a solo producer. Beside some great 12inches and a brokenbeat-alike Album (“Metaworld”) for **Combination Records**, he recently released a very successful vinyl 12inch on the clubby Compost Sublabel “**Compost Black Label**” under his alias **Goosepumpz (with Tyree)**.

His different projects show the variety of **Matt Flores** as a musician, DJ or MC. It is almost impossible to categorise his music, though all his work has one thing in common: a funky soulful vibe and a unique beat structure. On the new relaunched label from Ingo Sänger **Farside Records**, **Matt Flores** kicks off with the first Vinyl release.

“**Anti Gravitation Kit**” is a big tune for all the DJs that like to rock the crowd with some low-key atmosphere. With its funky breakbeat loop and the wonderful strings a Detroit-ish vibe could not be denied. “**Lapad**” stays in contrast and is slow, way too slow. With 90bpm, a straight bassdrum, brilliant warm harmonies and a live bass the tune creeps into your ear and should appeal to the deep dancefloors and is a perfect tune for the early hours. Might be the secret and silent winner of the record....

The remix treatment of “**Lapad**” by **Tyree Cooper**, one of the godfathers of hip house is the personal highlight from all people involved into **Farside** on this 12inch. The term legend has been frequently used for mistake, but not for the artist **Tyree**. As a pioneer of today's dancemusic, his career started in Chicago in 1986. With the classic tune “**Acid Over**”, **Tyree** has become a worldwide respected DJ & Producer and released a lot of brilliant tunes on leading labels like **DJ International**, **Dancemania**, **Jack Trax** to name a few. Since 5 years **Tyree Cooper** lives in Berlin and reworked „**Lapad**“ in his own unique style. A little bit of an early 90s Old School feel with a big big bassline and a brilliant solo vibe played by **Eric d. Clarke** of “From Disco To Disco” **Whirlpool Productions**.
