Westpark Unit (aka DJs Herb LF & Ingo Sanger) are back with two brandnew summerjams. While being busy as DJs and other projects, it was little quiet for **Westpark Unit** in the last year and it is about time for them to come back with new music. And what a comeback that is!

After their most recent releases on germans **Draft Records** (Album “Selected Collected Related” incl. a **Victor Davies** collaboration), **Stir 15** as well as a remix for **Motorcitysoul** on Frankfurt Label **Infracom Records**, **Farside Records** presents a fantastic roots-dub-house track called “**Loversclub**”. An earlier version (“Loversrock”) already appeared on the 2004 Xmas Carhartt Compilation.

In tradition of **Westpark Unit** still being fans of Hip Hop/Dancehall since the mid eighties, a relaxed dub-vibe is always a trademark of their music. When both playing for an openminded crowd a dope beat always has its place in their sets. With a dancehall alike subbass and the beautiful vocals “**Loversclub**” is catchy and works perfect in a deep house ste with recent Franck Roger, A. Alvarez or Mr. V tunes while still being very Reggae.

“**Stoned Love**” is a boogie-down-dope-tune, starts very easy and dry, but should cause some nice euphoric feelings when the Strings & Vocal appear. As a special pleasure we are proud that upcoming french producer **Bruno Hovart aka Patchworks** of Still Music, Rotax, Q-Tape, etc. fame gives us a remix treatment and pushes the track into a new direction. He creates a wonderful deep and soulful discovibe around the vocal with an astonishing live solo. “**Stoned Love**” works on any Deep House Floor and should appeal to the Headz as well. Watch also out for **Patchworks** playing live with the whole crew aka **Patchworks Ginger Xpress**.
