**A In Temptation
Around Me**

**Cat. No.: FAR-OTRS 22
Street Date: 19.10.2012
Digi & Vinyl: Groove Attack**

**AA Did You Know (Henry L & Ingo Sanger Remix)
Did You Know (Original)**

This second release from **Ron Deacon** on **Farside Records** is long and epic with three different tunes, including a funky **Henry L & Ingo Sanger Remix**. Recent releases from Leipzigs finest producer on high class imprints like **Aim**, **Falkplatz**, **Workshop** or **Team** finally put him completely on the map in the worldwide electronic circus. His unique sound somewhere between deep, freaky and tech inspired always with a melancholic & soulful edge, has been honored by lots of DJs. His latest collaborations with another musically genius & activist from Leipzig **Filburt** (from **Good Guy Mikesh & Filburt**) under their alias **RDF**, shows his affinity for a deep & melodic groove even more.

“**In Temptation**” might be the most powerful dancefloor tune from **Ron Deacon** to date. With a tech-trancy edge this one keeps up tension with a very special harmonic twist, until it breaks down with a hip hop alike sample. Watch this killer tool destroy every club with the hooky beautiful chords in the second part. Simple, effective and straight on point.

The tune “**Around Me**” shows **Ron’s** skills in arranging a beautiful harmonic slow house groover. Just beautiful music and the favorite of not just a few advance listeners on this EP.

“**Did You Know**” is an epic deep tech tune and shows off with a wink and the right dose of humour. Listen close to the german speech sample. Soundwise the chords might remind of a fairy-tale with a heartfelt melody. Wonderful.

The **Henry L & Ingo Sanger Remix** of “**Did You Know**” uses the original harmonies and transfers the track into a little floor-friendly funky discofied tool. Watch out for some bassline business in here.
