It is almost impossible to include all activities and productions of **Herb LF** in one infosheet. Also you can't nail **Herb LF** down on one style. As longtime freestyle, drum & bass or house dj, founder of the only german 2step collective **Gush Collective** (with e.g. **Matt Flores**), Labelchef of **Draft Recordings & Metrosoul Records** or as him being part of the duo **Westpark Unit** (with Ingo Sanger), you won't find any german activist that did not own something out of the **Herb LF** Nordstadt FM studio. If you are searching for funk, soul, dub & jazz, **Herb LF** is the right one.

Additionally he started the profession of Mastering the music of some artists & labels like Freude Am Tanzen, Musik Krause, Robag Wruhme & of course Farside. It seems that this guy never leaves the studio.....

It is an honour for **Farside Records** to have one of the rare solo releases of **Herb LF** in the pipeline. With a kick ass mixture of dope funk, deep house and wonderful detroitish harmonies, "**Jam 2 Tha Mother**" is more hip hop than house and has been dropped in some DJ sets for a while now (in an older Westpark Unit version). The track should have been released through Cologne based label Spectrum Works (with tunes from ame, Marcus Worgull, Kabuki, etc.), but sadly the project never happened. But not too sad, as this new re-edited version of "**Jam 2 Tha Mother**" is a monster that can finally be played out on Vinyl.

"**Miles**" has a brilliant hook and can be categorised somewhere between space age disco/electro with a deep house/boogie vibe. This is a very cool club tune, also for the peak time hours and should appeal to I:Cube & Charles Webster fans.

To have a perfect package the mighty Stuttgart based musician **Soulphiction** (aka Jackmate, Philpot Records, Sonar Kollektiv), reworked "**Miles**" in his brilliant unique manner. Reducing some disco elements, pitching up the harmony, adding a bouncing bassdrum & spicing everything up with some Detroit sounds, **Soulphiction** presents us a killer Detroit tune. Feels itself very well in a techhouse inspired set, as well as in the late night deep house hours. Yes Darling, this is art!
